SWYPE IT 2.0.0 BETA TEST PLAN

Hi! Welcome to the Swype It 2.0 beta test group! Wahoo, your are awesome and I love you, any way, follow this list!

1. USING TESTFLIGHT

Ok. So we are using TestFlight to distribute the app! It's a service from Apple and you will get an email that looks like:

I have definitely heard of it going to SPAM folders so check there and if it's still not there let me know! I'll resend it on my end.

A. Follow the instructions in that email

- i. Download the test flight app
- ii. Tap redeem
- iii. Copy and paste that code in if necessary

B. Now from here on out you will get a notification when I send out a new build!

C. Wahoo you should now be good to go, life is good!!! RIGHT??!

2. SENDING FEEDBACK

A. I made it super easy for YOU to send ME feedback! (Yay! I know awesome right?!?)

B. All you need to do to send me feedback is SWIPE WITH TWO FINGERS TO THE LEFT!!!! That's it, like does it get better than that? No. It doesn't.

C. So If you're playing and all the sudden the game locks up or something, swipe with two fingers to the left and draw a picture or tell me about the steps you did to make that happen!

3. PLAYING YOUR FIRST GAME

- A. Now the fun part!! Yay games! I love games, sorry got excited there, I'm back.
